Supplemental Reporting of Non-GAAP Results of Operations. M&T consistently provides supplemental reporting of its results on a "net operating" or "tangible" basis, from which M&T excludes the after-tax effect of amortization of core deposit and other intangible assets (and the related goodwill, core deposit intangible and other intangible asset balances, net of applicable deferred tax amounts) and expenses associated with merging acquired operations into M&T, since such items are considered by management to be "nonoperating" in nature. The amounts of such "nonoperating" expenses are presented in the tables that accompany this release. Although "net operating income" as defined by M&T is not a GAAP measure, M&T's management believes that this information helps investors understand the effect of acquisition activity in reported results.
