**Lobbying**

In 2025, M&T reported expenditures of \$420,000 related to federal lobbying on bank regulations, economic development, small business lending, cybersecurity, interchange, digital assets, the Credit Card Competition Act, and CDFI issues.

**Trade Associations and Industry Groups**

Our expenditures on advocacy include dues to national and state trade organizations. These organizations give us the opportunity to discuss policy with a broad community of thought leaders. Trade Associations may engage in political activities or make political contributions to federal and state candidates and committees. These organizations take a wide variety of positions on many issues, not all of which M&T supports.
